

**Model SCGP05OW1AB**

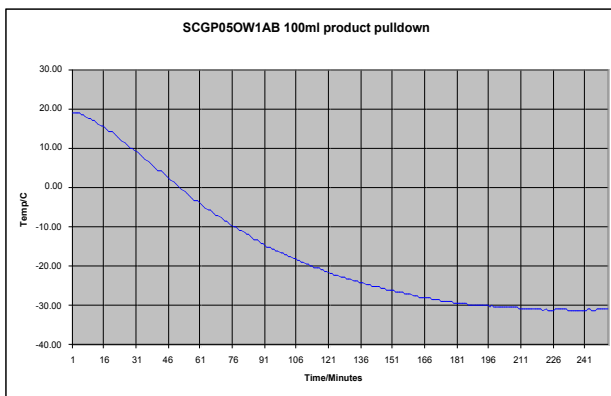

**All Freezer** (shown with optional LCD display)

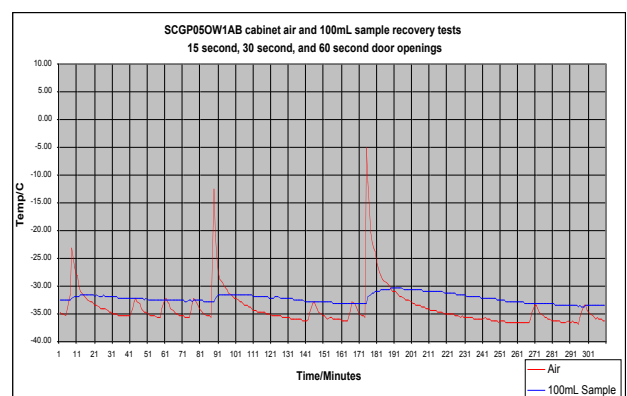

BSI's space-saving under-counter high capacity freezer model is ideal for placement as free standing beside the work bench or under-counter (minimum height is 35.75"), with the features and convenience of our full-size models. This model carries a commercial rating for general laboratory use and comes standard with a manual defrost system that allows you to select the appropriate time for the system to be engaged, unlike auto-defrost models that work on a timer sequence. This product utilizes proven technology used in the household appliance industry, but is manufactured to endure the rigors of commercial laboratory use and carries a warranty for this application. For performance assurance, each unit is completely tested and shipped with its unique pull down performance graph. The exterior is constructed of heavy gauge steel with a baked-on white epoxy coating for long lasting durability. The interior is white molded ABS with no seams for easy cleaning and decontamination. The interior environment is protected by CFC-free, high-density foamed-in-place urethane insulation. Additional standard features include two fixed refrigerated shelves, a removable wire retainer panel at the floor level for large item storage, two shelves on the door, built-in floor drain and adjustable leveling legs. Optional built-in independent LCD temperature display available.

**Specifications**

- Temperature Range Freezer -30 ° to -15 ° C (-22 ° to 5 ° F)
- Dimensions Exterior 22" W(55.88 cm) x 26.5" D(67.31 cm) x 35.6" H(90.42 cm)
- Interior 17.3" W(43.94 cm) x 22.3" D(56.64 cm) x 23" H(58.42 cm)
- Capacity 5.1 cu. ft. 125.5 liters
- Net weight 119 lbs. 53.98 kg.
- Shipping weight 137 lbs. 62.14 kg
