

Model SCGP11OW1AB

All Refrigerator

BSI's space-saving floor model refrigerator is ideal for placement as free standing beside the work bench. This model only requires 3.9 sq. ft. of floor space. This model carries a commercial rating for general laboratory use. This product utilizes proven technology used in the household appliance industry, but is manufactured to endure the rigors of commercial laboratory use and carries a warranty for this application. For performance assurance, each unit is completely tested and shipped with its unique pull down performance graph. The exterior is constructed of heavy gauge steel with a baked-on white epoxy coating for long lasting durability. The interior is white molded ABS with no seams for easy cleaning and decontamination. The interior environment is protected by CFC-free, high-density foamed-in-place urethane insulation. The internal inventory environment includes four main compartment adjustable wire shelves and one solid, fixed-position shelf. There are also two lower compartment bins, nine shelves on the door, five of which are adjustable for additional storage capacity and flexibility. Other features also include a reversible outer door, an internal light and adjustable leveling legs.
